

Jersey's Economic Future.

Zena shares her key takeaways from *Jersey's Economic Future IoD Debate*.

Zena Couppey
Chief Executive Officer

Facing the challenges.

Jersey's economic future depends on our ability to face certain challenges.

Complacency is not an option. We need better data, smarter policy and more energy to **act with purpose and pace.**

Collaboration is our superpower.

No one organisation, sector, or individual can solve things alone. We must **unite** around **bold ideas**, embracing change, and attracting the right people and skills we need.
